

CLAIMS

What is claimed is:

1. A method comprising:
 - enabling an administrator to define a plurality of clinical trial parameters through filling out fields in a set of computer forms;
 - storing the clinical trial parameters in a central database;
 - enabling clinical trial site personnel to enter subject enrollment data corresponding to at least one clinical trial defined by the clinical trial parameters via an Internet web portal;
 - storing the subject enrollment data in the central database substantially as it is entered in time;
 - generating a chart displaying selected data aggregated from the subject enrollment data to graphically portray subject enrollment attributes pertaining to a selected clinical trial from among said at least one clinical trial.
